

## 2022 NSW Community Outreach to Physics Award

The Australian Institute of Physics in New South Wales has instituted this annual award as a means to recognise the work of individuals for community outreach to the discipline of physics. This Award seeks to acknowledge an individual, with a clearly notable record of work in contributing to outreach, physics education, and has demonstrated passion for the study of physics in New South Wales.

The NSW Community Outreach to Physics Award will be presented each year following a selection from the list of those nominated for the Award. The Award will be awarded to individuals that seek to achieve activities that engage our community and contribute to public engagement within physics. The Award is open to everyone in NSW and will consist of a \$1000 monetary award, and a certificate citing the achievements of the individual.

## Recipients of NSW Community Outreach to Physics Award

<b>Year</b>	<b>Recipient</b>	<b>Institution</b>
2014	Dr Ken Silburn	NSW Department of Education, Casula High School
2015	Dr Amanda Baurer	Australian Astronomical Observatory
2016	Professor Joe Wolfe	University of New South Wales
2017	Dr Ragbir Bhathal	Western Sydney University
2018	Dr Scott Martin	CSIRO
2019	Mr Glen Moore	University of Wollongong Science Centre
2020	A/Prof. Christopher Ferrie	University of Technology Sydney
2021	Professor Andrea Morello	University of New South Wales

---

## Eligibility and Criteria

The nomination should show that the individual being nominated for the Award is engaged within physics and has:

- Worked to engage the academic community to physics or academic pursuits.
- Effectively developed community events for the public, or other activities that engage our physics community.
- Increased awareness, knowledge and experiential learning opportunities for students in relation to physics community development and grassroots work.

Nominations for this Award will close on **8th October 2022**.

A statement of up to 500 words outlining the work for which the nomination seeks recognition should be included in the nomination form.

**These Awards are proudly supported by Laboratories Credit Union**

**Strictly Confidential**

## 2022 NSW Community Outreach to Physics Award Nomination Form

We wish to nominate **INSERT NAME and EMAIL**  
for consideration of the NSW Community Outreach to Physics Award of the Australian Institute of Physics in New South Wales.

Nominee's achievement (*a statement of up to 500 words outlining the work for which the nomination seeks recognition. Please refer to the criteria*)
