

Criteria for Student Prizes entitled “AIP NSW Best Graduating Student”

The Australian Institute of Physics in New South Wales has instituted this annual prize as a means to recognise the work of “AIP NSW Best Graduating Student” nominated by each Physics Institution in New South Wales. The prize seeks to acknowledge an individual, with a clearly outstanding work in their undergraduate Physics program in New South Wales.

The NSW AIP prize will be presented each year to individuals that have been nominated by their physics institution in New South Wales. The prize will consist of a \$250 monetary prize, and a certificate citing the achievement of “AIP NSW Best Graduating Student” in recognition for outstanding performance in the Physics undergraduate program from the individual institution.

Eligibility and Criteria

The nomination from each institution in New South Wales should show that the individual being nominated for the Award has completed an undergraduate / Honours / Masters program in physics and has:

- Achieved at least a *Distinction average* in the Physics program or for Honours students a *First Class* is achieved as minimum criteria for the prize.
- Eligibility criteria close on **8th October 2022**.

Nominations for this Prize should be lodged by email to:
