

Files or documents the AIP is seeking (to ensure there are good AIP records)

AIP Biennial Congress proceedings

There are no known copies of the following anywhere:

No 6, Brisbane, August 1984

For other congresses the AIP would like to ensure that there is a copy of the proceedings in the National Library (some are held in other libraries) as well as having a copy in our archives; see

<https://aip.org.au/CONGRESS/>

Having a fully scanned copy of each volume would help to maintain the visibility of previous congresses – any volunteers?

Information on past members

The website has a list of deceased Fellows – do you know of any corrections or updates to this list.

<https://theaustralianinstituteofphysics.wildapricot.org/resources/Documents/Fellows/Deceased%20Fellows%20of%20the%20AIP.pdf>

There is some information missing in the list of deceased Honorary Fellows

<https://theaustralianinstituteofphysics.wildapricot.org/Honorary-Fellows>

Indeed any other information on past members would be helpful so that we can record in our long-term database.

For the National Library

Its holdings of our magazine – catalogue suggests V19 no 11 (1982) & V20 no 3 (1983) are missing
